110 SIGNED FOR JL BASEBALL
Twenty-one parents attended the Little League meeting, Sunday, May 3. With 110 boys signed up for baseball this year, this meeting could hardly be termed successful. Committee members are as follows:

Chairman, Floyd Bartlett.
Secretary and Treasurer, Mary Rice and Ginny Hutchins.

Managers: Red Sox, Bob Mills; Braves, Maurice Brooks; Farm Team, Rodney Hanscom and Bud Paine.

Groundkeepers: Midget Field—Stuart Cross and Bob Lowe; Junior Field, Guy Rice and Wilbur Myers.

Advertising: Edith Rice.

Transportation: Midgets, Bette Mills and Bea Lowell; Juniors, Libby Bane.

Scorekeepers: Juniors, Clifton Jackson; Braves, Violet Chretien. Fund Raising: Albert Buck, Don Chretien, Jim Hutchins.

Chief Umpire: Henry Hastings. Umpires: Horble Lyon, Pete Baker, Jack Trinward, Blackie Cummings, Clayton Bane.

We still need a manager and an assistant for a farm team. If we do not get any volunteers, the beginners won't be able to play at all. This means approximately 20 disappointed boys—it might be your boy! We also need someone to help Libby Bane with Junior transportation; two more scorekeepers; some one to take charge of the refreshment stand and plenty of helpers. We also would like some more umpires.

Some of you don't want to become involved during the summer months but someone has to do the work and most of the committee members have worked with the Little League since it started. Let's

I would like to acquaint all interested parents with a ruling which has to be followed in our two league terms this year. We are allowed a maximum of 6-12 yr. olds and 5-11 yr. olds on each team. We are allowed replacements for any of these boys but there must be

some more volunteers!

The Baseball Benefit Supper was a huge success with a profit of \$822 and we would especially like to thank Albert Buck and Mary Angevine for their part in this. We plan to have another supper later in the summer. Tentative plans have been made for a Tag Day Saturday, May 23. We also would like to thank Ralph Berry for opening the Community Rooms for our meeting and for building us a fire.

The Midget field is badly in need of a permanent back fence. Hank Poile has agreed to take charge of putting up the fence and Emerson Clough will furnish the cedar poles and the 2x4's but we need enough No. 4 Dressed Pine for the fence. We could pay a little but not very much for the lumber.

Mike Coburn, Bill Myers and Dwight Lord have signed up since the names were published in the paper.

Come on parents, get behind your boy and show him you are interested in Little League Baseball.

There will be a committee meeting Sunday, May 10, 7:00 P. M. at the Community Rooms. Will all committee members please try to be present.

Rule F under the player code forfeits any boy's eligibility if he misses 50% of Spring practice without an excuse which is accepted by all league team managers.

I would be glad to explain rules and regulations to any parents at any time. I do my best to obtain sportsmanship and fair play and I believe I can give a logical answer to any complaint.

Sincerely,
Bob Mills, Mgr. Red Sox

BETHEL, MAINE

Our Great America *by Woody*

OUR 4-H TOUR

On Saturday, February 23, the Buttonville Cookes 4-H Club, of Bethel, went on a tour of important places in our town.

Our first stop was at Riverside Farms, which is owned by Harold Bennett. Mr. Bennett took over the milk business after his father retired. He belongs to the Maine Breeders' Association.

One of his helpers, John Greenleaf, took us through the buildings and explained the work to us. There are twenty-one milking cows in all, but only thirteen were being milked twice a day - 5:30 A. M. and 4: P. M. The black and white cows were Holsteins and the brown ones were Jerseys. The Jerseys give the most cream, or butterfat. The cows give milk about 300 days of the year; they rest about two months.

The cows are fed hay, grain, and potatoes. The amount of grain fed to the cows is according to the amount of milk they produce. About 20 pounds of potatoes are fed each day, plus the hay.

One or two cords of sawdust a week is used for bedding under the cows.

Everything is sterilized every time it is used, according to the law. The bottle caps come in a tube so they are not touched by the hands. Mr. Bennett uses steam under pressure for washing and sterilizing. After the milk is strained, it is pasteurized by heating it to about 120 degrees to kill bacteria; then cooled rapidly and stored

at 50 degrees or less.

We were given a chocolate milk for a treat.

The next place we visited was the Hanover Dowel Company. We were taken around by Mr. Jay Willard. We saw a number of machines, one of which was the sander—it makes the dowels smooth. We did not get the names of the others due to the noise made, but we did see them in operation. We were told a number of interesting things, but could not hear very well. We saw the fire, a room where they dry dowels. We saw a room where they paint the dowels different colors. The dowels are then sorted for length and size, and tied into bundles of 200 dowels each. Dowels are used in making furniture, television stands, and legs, building houses, and many other things.

We went to the office where Mr.

Addison Saunders gave each of us

a pencil with the name of the mill on it, and some sample dowels.

Mr. Saunders told us the prices of them. The biggest ones cost 3 cents and the small ones a penny.

From our very exciting stop at the dowel mill, we continued to the Oxford County Citizen Office, which is owned and run by Carl Brown and his boys. This printing shop and paper were established in June 1895. It is the only local paper and at present sells for 7 cents per copy. The Browns have owned the business for the last 31 years.

Mr. Brown demonstrated the

use of the Linotype machine,

COUNTRY FLAVOR

MILKING STOOLS

Grandmother frequently said, "Never throw anything away. Sooner or later it will come back in style if it is clothing, and for anything else some day you will find a use."

Milking stools as functional equipment went out of style again when man developed mechanical power to extract lacteal fluid from dairy. Now the stools are staging a renaissance in living rooms, dens and playrooms. This gives Grandfather an opportunity to tell his grandchildren about the good old days when a man went through life at a reasonable pace behind a horse.

Time was when a good countryman had definite ideas concerning the best milking stool. Some casual citizens were content to sit on a box. Some men who enjoyed life dangerously used a one-legged milking stool. A sizeable number favored a three-legged stool.

Some farmers favored maple for the seat; others argued for oak. All agreed that it had to be a hardwood that would plane down to a satin finish. Few things can be more disturbing to a philosophical milker than a stool which offers splinters.

Give a man a good-sized, solid stool of just the right height to fit his needs and four well-spaced, strong legs. Then one can settle his forehead against Buttercup's flank and begin to squeeze with assurance. Milking by hand is out of fashion on the larger farms, but there are still men with one or two cows who do not think that milking is too bad a job. Naturally a man wants a cow with good-

which sets the type, as well as all the other machines in the shop. He also explained to us how each machine is used in the process of printing the newspaper.

At the time of our visit they were in the process of making up different town reports. This was a very interesting experience for all of us.

The last stop on our fascinating tour of local industries was at the Mica Shop, which is operated in connection with the Wheeler Bro-

MAN'S RECIPE

SUNNY ACRES

CARAMEL SQUARES

These wonderful warming days we all ought to get outdoors more than we do. If life seems too much with you and you are frittered from the daily treadmill, take an unhurried walk in quiet woodland.

I believe that each person should own three places in his heart: a woodland, a brook, and a tree-clad pond. If you will find a woodland grove and go to it regularly through the year's cycle, you will gain therapy for heart and soul that is better than tranquillizing pills.

As you learn about trees, flowers, birds, bark and buds, the pleasurable trivialities of life fall into proper perspective. You will harvest rewards that cannot be measured in coin of the realm. Golly, that's a sermon! But perhaps you will forgive this minister's son for a little preaching.

For these caramel squares use one half cup shortening, one half cup sugar, one half cup brown sugar, one egg, one half teaspoon vanilla, one and three fourths cups flour, one teaspoon baking powder, one half teaspoon salt.

Cream shortening and sugar. Add egg, mixed with the vanilla. Blend. Sift in the flour, baking powder and salt. Mix all well and spread in an eight by eight greased pan.

For the topping: mix together one beaten egg, three fourths cup brown sugar, three fourths teaspoon vanilla and one half cup chopped walnuts. Spread this topping over the batter.

Bake at 350 for about 30 minutes, or until done.

sized spigots and an easy milker. With a cow of this caliber and a good milking stool, a man can enjoy a few minutes of pleasant, relaxing exercise at the beginning and the end of each day.

thors mine in West Bethel. There Mr. Ted Wheeler told us about mica. It comes from pegmatites that are blasted from the ground ledges. Muscovite is the name for common mica.

The steps to produce mica are briefly: mining, the fabricators, and electronic industry. The thickness to which the mica is to be trimmed is measured by a micrometer. There are seven trimmers working now to get pieces the right size and thickness. Sometimes mica comes in crystals. A crystal always has six sides. Ruby mica gets its name from the color you see when you look through it. Mica crystals are yellow or black. Green pieces are called beryl. Lead is found in mica rock, too. Pumice is the old rock that floats on water. Mica is used in television and radio tubes, airplanes, water skis, light bulbs, and the electronics industry.

We appreciate Mr. Wheeler's generosity in showing us through the Mica Shop.

Following the tour we went to the home of one of the club members for refreshments, which included a surprise birthday cake for our leader, Mrs. Ethel Robertson. We all agreed we had a wonderful afternoon.

We would also like to express our sincere thanks to all of the people who helped make this tour so interesting. We all feel that we have learned much about our community as a result. -By Louann Brown, Ellen Brown, Ethel Kimball, Charlene Swain, members of the Buttonville Cookes 4-H Club, Bethel.

ELECTRIC UTILITY STOCKS

We believe that all investors should hold some electric utility common stocks. The percentage to be maintained in utilities will vary with the investment requirements and objectives of the individuals concerned. The more conservative the account, the greater the proportion of utilities that should be held.

The fundamentals of the industry are excellent. Growth in customers, revenues, net income, and more important to the common stockholder, not per share are increasing consistently as are dividends.

The common stocks of the electric utility industry have been giving a truly remarkable account of themselves. Since last October, Standard and Poor's electric company index has shown an appreciation of about 14% while their index of 425 industrial stocks is up 13%.

In a year generally conceded to be a rather severe recession year, the electric utilities showed a growth in revenues of about 5% in 1958, and an increase in net income of 7.6%. This excellent showing compared with a 5.5% gain in net in 1957. Contributing to this fine performance was a slight gain in kilowatt hour sales, a slight decrease in fuel costs, and an increase in rates. The rise in net income in 1958 resulted in a great many dividend increases.

The outlook for 1959 appears to be equally promising. Overall kilowatt hour sales should increase between 8% and 10% over last year. Revenues will also be aided by rate increases for there are a great many pending, and many of the rate increases granted late in 1958 will take their full benefits felt in 1959. We would, therefore, estimate that overall the electric utility industry could show a 7.8% increase in net income, which should result in a repetition of the rising dividend trend of 1958, but to an even greater degree.

The most interesting aspect of

the electric utility industry is that the sale of electrical energy appears to be in a long term growth trend. Population growth, coupled with automation of industry, the home, and the farm are compounding the increase in use. Since 1929 the average use per residential customer has increased from 502 kilowatt hours to 3,366 in 1958. The figure for 1959 is expected to increase substantially to about 3,600 with greater sales of appliances.

Electric utility common stocks can be purchased with various objectives in mind. Some companies have shown outstanding growth, and their common stocks usually sell at a higher price relative to earnings and at lower yields than the average. Others yield substantially more and can be purchased for income purposes. These characteristically have shown less spectacular growth records. Still others give the investor a combination of growth potential and income.

In today's market we recom-
mend the following stocks for the
purposes outlined above:

Growth and Income: Central Il-
linois Electric and Gas, Central
Illinois Public Service, Common-
wealth Edison, Consolidated Edi-
son, Indianapolis Power and Light,
Iowa Southern Utilities, Minne-
sota Power and Light, West Penn
Electric, and Wisconsin Power and
Light, Income: Eastern Utilities
Associates, Iowa-Illinois Gas and
Electric, New England Gas and
Electric, Public Service of Indiana,
and Wisconsin Public Service,
Growth: Central and South
West, Kansas Gas and Electric,
Louisville Gas and Electric, Public
Service of New Mexico and Texas
Utilities.

GOULD ACADEMY
GOULD NINE DROPPED
INTO SECOND PLACE

The Gould nine divided its two games of the second week of the baseball season, but that was not enough as Paris High is still unbeaten. On Tuesday the Huskies were pounding out 15 hits for an easy 12-5 victory over the Mexico Pintos.

Friday the Huskies ran into Swan at his best, and the South Paris pitcher allowed only one hit and buried his Cardinals into first place in the Western Maine Conference. At the end of last week's play the Western Maine Conference stands are listed below:

Team	W	L	Pct.
Paris	3	0	1.000
Gould	3	1	.750
Norway	2	2	.500
Mechanic Falls	1	1	.500
Mexico	0	2	.000
Bridgton	0	3	.000

GOULD TAKES FARMINGTON,
71½ - 35½

Gould had little trouble winning its second meet in as many starts. The Huskies won 5 of the 12 events, but they swept two of them, which made the big difference. Weston was a double winner in the sprints, while Angelino took the mile and the 880. Dick Daxell of Farmington was high point man of the meet with victories in the two hurdle races, the broad jump, and a second in the high jump for a total of 18 points.

Gould's other event winners were Christie in the 220, Freeman in the high jump, Hallaway in the discus, and Pete Karpovich tied with Lincoln in the pole vault.

The Husky Pastimers will continue their league competition traveling to Norway Friday for a second encounter. Gould won the first game at Bethel, but the Norwegians are capable of upsetting the Academy nine in this return game.

On Tuesday the Gould team will be on its own field to entertain Bridgton High. The visitors have been having their troubles this year, but they are due to win some games.

Between these two games the Gould JV's will be traveling to Hebron on Saturday for a 2:00 p.m. game. Gould took the opener from Hebron by a close score of 4-3 in what was the first game for both teams. It should be another interesting game between the two young teams.

GOULD TRACKMEN MEET
CONY SATURDAY

Cony High of Augusta will be the guest of the Gould Academy track men this coming Saturday. Both teams will have their noon luncheon together, and about 1:15 rivalry will get underway with the discus and the pole vault. This will be the third meet for the Huskies.

At a recent morning assembly Mr. Bailey showed colored motion pictures of the ski meet in Yakima, Washington, which he and friend Angelino attended.

Welcome back to school this week was Gilles Auger who was a patient last week at the Rumford Community Hospital. During his absence French classes were taught by Mr. Vachon.

MASON - BEAN

A very pretty wedding took place at the home of Mr. and Mrs. Herman Bean Sunday afternoon when their daughter, Evelyn Louise, was united in marriage to William Ellery Mason of Woodstock by Rev. Alton Verrill. Dorothy Bean, a sister of the bride, and Edmund Mason, twin brother of the groom, were the attendants. About 25 friends and relatives were present at the wedding.

A reception was held at the Union Church immediately after the wedding. Around 100 or more guests were in attendance. Eldine Thurlow and Shella Morgan had charge of gifts. Mrs. Irene Osgood had the guest book. Mr. and Mrs. Maynard Fleming had charge of the decorations. The serving committee were Pauline Bean for punch; Helen Heath cut the cake; Eleanor Bean, Myrtle Thurlow and Miss Morgan attended the table.

Mr. and Mrs. Mason received many gifts. After the reception the happy couple left for parts unknown.

Miss Cynthia Coolidge visited her sister, Miss Serene Coolidge, in South Paris during her vacation.

Mr. and Mrs. Clarence Remington and family visited Mr. and Mrs. Ralph Remington in Kittery Sunday.

Mr. and Mrs. Carroll Curtis visited Mrs. Maud Daye on West Paris Sunday.

Mr. and Mrs. Walter Hamlin, Sheryl, Cynthia, Pamela and Wanda Lou, of South Waterford; Mr. and Mrs. Richard Stearns and son, Danny, of Rumford Corner were Sunday guests of Mr. and Mrs. David Foster.

The East Bethel Cemetery Association held a meeting Monday evening and decided to have a Clean-up Day on Saturday, May 9. All interested persons please come and help in the work. Thanks.

The Early Risers 4H Club of East Bethel are planning to have a rummage sale the last part of May. All who would like to donate articles for this rummage sale, please contact Mrs. Gerry Howe, Mrs. Thelma Remington or any member of the club.

Mr. and Mrs. Ben Tyler were Sunday guests of Mr. and Mrs. James Plawlock in Rumford.

Miss Arlene Coolidge was home for several days from her duties in Boston.

CARD OF THANKS

We wish to thank our many friends who remembered us with cards, flowers, wedding cake and presents on our 65th wedding anniversary, May 1.

NEW BOOKS AT THE BETHEL LIBRARY

Adults:

"The Heart is the Teacher," by Leonard Corrillo. This is the story of Leonard Corrillo, who, starting life as an Italian immigrant in the 1860's, became a beloved teacher and later principal in the teen and poverty ridden melting pot of New York's East Harlem.

"The Use of Many Rooms," by Robin White through the sympathetic magic of these pages, we join the Reverend Mr. Fisher and his Connecticut family in and about the compound of an Indian village.

"The Professor and I," by Dorothy Van Doren. In a vivid and humorous way, Dorothy Van Doren gives us intimate glimpses into the life of a delightful American family.

"Midnight at Midday," by Galley Carneval. A wonderful introduction to life in Alaska.

BETHEL SCHOOL NEWS

Grade 6—Miss Verner

We are rehearsing at the Gym for the Spring Concert on Friday May 15. We are studying Central America and Hawaii in Social Studies. Ethel Kimball brought an "Hawaiian" "Ti" plant. It looks like a small log now, and a sprout and leaves grow up from it. We will bring souvenirs of Hawaii. In Science we are finishing "Sounds" and are going to study "Some Common Acids." We are studying Decimals in Arithmetic. Kenneth Crockett brought some Mayflowers and Margaret Mundt brought some Dog-tooth Violets. We did very well in our Achievement Tests.

Grade 5—Mrs. Hastings

We finished our last test today. We had our Achievement tests last week. For Friday activities we are going to have a softball game. We went over to the gym last Tuesday and today to practice for ed as patrols on the way over there. Charles Jacobs' birthday is this Sunday. — News by Judge McMillin and Charles Jacobs.

Mrs. E. Lord's Room

This past week we have been studying picture graphs, bar graphs, line graphs, and circle graphs. Each day each of us brought in these different graphs both from magazines and ones we made ourselves. Friday, notebooks will be passed in to the teacher, enclosing graphs. An exciting game of spelling baseball is taking place, with the score 111 to 104, in favor of the Eagles. In science the eye and what it is made up of is our topic. A film strip on the eye was enjoyed. Monday. From it we took notes and learned quite a lot which we did not know before. Mrs. Lord has put a poster on the bulletin board on the construction of the eye. — Tuesday we finished going over the highlights of Spain. We all enjoyed the post cards that Norma Jeanne Moan brought in, which were sent to her from Gibratlar, Spain. Wednesday morning we started to hit the highlights in France. — This is our last chance to get a gold seal with a blue ribbon from Miss O'Connor in writing. She comes May 22. — Profound and antecedents we find are very easy. Tuesday we each wrote them.

Enrollments are currently being received in the Farm and Home Improvement Contest at the Oxford County Extension Office. Anyone in the county who is interested in taking part in this contest may receive an enrollment card from the local community chairman or from the following county committee members: Mrs. Robert Hastings, P.O.D. 1, Bethel; Mrs. LaForest Twitchell, Bryant Pond; and Mrs. Iona Andrews, West Paris. The Extension office also has enrollment cards and will be glad to provide for those interested. Everyone must be enrolled by May 15. A picture taken before any improvements are made is requested by the committee.

Prizes of \$50-\$30-\$20 will be awarded to those receiving first, second, and third place in this contest.

This contest includes any improvements made on the outside of the house—grounds, buildings or yards. Inquire at the Extension Office or any committee member for further information.

MAGALLOWAY

— Mrs. Bessie Harvey, Corres.

The body of Wesley N. Ferris, who died on February 5th, was taken from the tomb in Colebrook on April 29th and buried in the John Bennett lot in the Magalloway Cemetery. Miss Helen Lyman, the Congregational minister at Colebrook, held a memorial service at the grave. Mr. Ferris had worked for Gordon Bragg and his father for many years and had lived in a cabin on Gordon's farm for 16 years.

Most of the "flu" sufferers are recovering slowly. One day last week there were only two pupils at the Magalloway school and five in Errol.

Fred Bennett is feeling a little better also Archie Bennett.

The Magalloway Valley Ladies Club met last week with Mrs. Val Turner and will meet with Mrs. Phyllis Parsons this week.

The Rev. George Duke, who was our pastor for many years and is the minister at Damarion, N. H., now has had a serious heart attack and was in an oxygen tent in a hospital there for some time. He is out of the tent now but still very ill. His daughter, Miss Ruth Duke, was married at Colebrook

Saturday to Palmer Lewis, the younger son of Charles J. Lewis, the Gulf oil dealer.

Mrs. Bertha West has been staying with Mrs. Bessie Harvey lately as Mrs. Harvey has also been having the "flu."

The whilst party at Wilson's Mills Friday evening was very poorly attended owing to so much sickness.

Mrs. Alice Cameron and Mrs. Virginia Lane drove to South Paris on business Monday.

Maurice Parsons is talking of buying the Cooper place.

Mrs. Elizabeth Gilman called on Mrs. Mabel Cameron Sunday and Mr. and Mrs. Donald Cameron with daughter, Dobby, were there.

The smelters are not as plentiful now as of a week ago but there are a great many now.

Judith and Ronnie Griffin were home over the week end from Fryeburg also Stanley West and Leslie Olson from Berlin.

Maurice Parsons had to close his beautiful spaniel Candy as his hind parts were paralyzed.

Two of the Brown Company camps have opened this week.

Some of the Magalloway men are painting the outside of the church.

Church services were held in Errol Sunday morning and eve-
